

Digitally Transform Your Customer Journeys

One Platform to Orchestrate Customer Interactions in Real-Time

Lightico's technology makes it easy for customers to complete any required business process from their cell phone in real-time.

All the Solutions You Need to Streamline Your Customer Journeys

Instant eSignatures

Complete eSignatures instantly using text message initiated eSignatures.

Real-Time Document Collection

Collect documents to simplify onboarding and speed cycle time by up to 80%.

Intuitive Mobile eForms

Convert lengthy forms to mobile-friendly eForms so your customers can complete information correctly the first time.

Shared Review

Jointly review, markup and discuss documents with your customers to simplify troubleshooting and resolve queries.

AI-Powered ID Verification

Quickly and accurately verify your customer's identity with KBA, OTP and 8-second Photo ID Verification capabilities.

PCI-Compliant Mobile Payments

Simplify your payment procedures to improve payment completion rates by up to 20% and eliminate compliance risk.

Visual Cart

Streamline sales processes with visual order summaries and automated workflows that dynamically adjust and configure associated sales elements.

Instant Media Sharing

Accelerate deals and increase upsells by instantly sharing product images, and information with customers.
